The 95 Dolch Nouns

Dolch printed these 95 nouns as a separate list: common in early reading books, but **not recommended for a basic sight vocabulary**, because which nouns turn up depends on what a book is about. Read them with a picture or the real thing. Tick each one your child reads.

How to use this pack. Print the list page twice: once to tick the words your child reads today, and again a month later to see what stuck. The cut-out cards are on pages 1 to 11, one level at a time.

Green cards sound out. **Pink cards** are heart words: sound out the fair part, and learn the part under the heart by heart (in s-ai-d the s and d are fair, and ai says /e/). Each card names its Dolch level, and the blank cards at the end of a level are for words of your own. Luvinci's phonics games practice the same sounds.
