Count, trace and match

count the strawberries • trace the number • draw a line to match

1 to 5 one ten frame, the top row fills first

6 to 10 count the full top row as 5, then keep going

Grown-ups: point to each strawberry as your child counts it, one number for each. For 6 to 10, check the count again: 5 in the top row, and some more. No printer? Draw the frames on paper and use real snacks. Small snacks are choking hazards, so a grown-up stays close.
