

All 11 ways to make 10

● first number ● number you add

Count the red and the yellow: it is always 10.
Each row shows a pair and its turn-around.

$$0 + 10 = 10$$

$$10 + 0 = 10$$

$$1 + 9 = 10$$

$$9 + 1 = 10$$

$$2 + 8 = 10$$

$$8 + 2 = 10$$

$$3 + 7 = 10$$

$$7 + 3 = 10$$

$$4 + 6 = 10$$

$$6 + 4 = 10$$

$$5 + 5 = 10$$

Your turn: color a way.

____ + ____ = 10

Friends of ten: 1 and 9, 2 and 8, 3 and 7, 4 and 6, 5 and 5, 0 and 10. Color the blank frame with a red and a yellow crayon to show one of them.

Make 10 card games

Make 10 Match 1 copy, 1 or 2 players

Mix the cards and lay them face down. Take turns flipping two. Make 10? Keep them and go again. No? Turn them back. When the cards are gone, the player with the most pairs wins.

Make 10 Go Fish 2 copies, 2 or 3 players

Deal 5 each. Lay down pairs that make 10. Ask for a friend: "Do you have a 7?" Yes? Take it, lay the pair down, ask again. No? Go fish: take one card from the pile. When all cards are paired, most pairs wins.

Cut out the 12 cards along the dashed lines. **Stuck?** Count the empty boxes on your card. That is the number you need.

0 	1 	2
3 	4 	5
5 	6 	7
8 	9 	10

Make 10 first: adding to 20 1st grade

How it works: the red dots fill most of a ten frame. Draw a dot in each empty square of the first frame. Then draw the rest in the second frame. Ten and some more is easy to add. So $8 + 5 = 8 + 2 + 3 = 13$.

EXAMPLE

$$8 + 5$$

$$= 13$$

$$8 + 2 = 10$$

$$10 + 3 = 13$$

1.

$$9 + 4$$

$$= \square$$

$$9 + \square = 10$$

$$10 + \square = \square$$

2.

$$7 + 5$$

$$= \square$$

$$7 + \square = 10$$

$$10 + \square = \square$$

3.

$$8 + 6$$

$$= \square$$

$$8 + \square = 10$$

$$10 + \square = \square$$

4.

$$9 + 8$$

$$= \square$$

$$9 + \square = 10$$

$$10 + \square = \square$$

5.

$$8 + 3$$

$$= \square$$

$$8 + \square = 10$$

$$10 + \square = \square$$
